

This is in reference to the LPFM stations and the proposal to expand the service in a way that would allow these new LPFM stations to take priority over current FM translator service. I now enjoy the services of the K-LOVE station 90.7 here in Oxford, MS which could be affected by this proposal. K-LOVE is there for me when I am getting ready for work in the morning. It is there for me as I drive my car and it is there for me as I do my housework on Saturdays. It is the ONLY radio station I tune into. And I know others in and around Oxford that are the same. I know the influence of this Christian radio station makes me saner while driving and more willing to forgive and overlook other drivers rude behaviors. It prepares me for my work day. I work with people who have mental disabilities. I need to be calm, upbeat, and very patient. K-LOVE delivers positive and encouraging music as well as Christian teachings. The person who listens to K-LOVE naturally shares this positive attitude and words of encouragement with the people they come into contact during their day. Oxford is a college town with many students living away from home for the first time. This radio station is a wonderful life-line for the Christian student who is facing the world without family around to help them with moral decisions. Please reconsider. Thank you for allowing me the opportunity to share with you my feelings on this matter.
